Daily Multiple Plus+ \$31.98 GLV

The Daily Multiple Plus contains a blend of Super Concentrated Sea Vegetables. Our unique processing system compresses the sea vegetables in order to concentrate them into supplement levels. No heat is used in the process. This maintains the nutrients in their original state. The Sea Vegetables are then blended with Aloe Vera juice, honey, fruit juice, and other natural nutrients like Vitamin C. The result is one of the most powerful nutritional supplements on the market today.

Calcium/Magnesium \$33.98 GLCM

Calcium is, debatably, the most important mineral for the body. It is also one of the hardest for the body to absorb and assimilate. That is why we offer a calcium-magnesium supply in a liquid base, combined with the proper constituents so your body can get the most out of the minerals you get in liquid Calcium. We have also included Vitamin-D for optimal intestinal calcium absorption, and Boron; in which recent studies have concluded that Boron can be an effective addition in the treatment of osteoporosis, and promotes healthy bone metabolism.

Liquid Glucosamine \$31.98 GLG

Why take Liquid Glucosamine VS a Pill? The answer is simple. Liquid Supplements have an absorption rate that is up to 10 times higher than in pill form. Your body simply has a harder time digesting pills. Pills also contain unwanted ingredients added in order to bind the pill together. Fillers and binding agents used in forming a pill can actually hinder the absorption rate. This greater bio-availability translates into two things: One, you get more of the nutrient you need so you benefit more...and two, you may also find that you benefit faster. Liquid Glucosamine users often report positive results within a few weeks compared to the two months or so reported by users of glucosamine pills.

Energy & Stress \$31.98 GLES

Energy & Stress provides a megadose of B-vitamins in one ounce, plus Siberian Ginseng and Potassium. The number one health complaint in America is lack of energy. B-complex vitamins provide a natural energy boost without stimulants. Recent studies have also suggested that B-vitamins can improve cardiovascular health. B-vitamins are vital for the nervous system by help the body rebound and deal with stress more efficiently, and in energy production by assisting in the conversion of food to energy. B-vitamins also contribute to mental health, acting as a natural antidepressants.

GKC-4 GORILLA KC-4 NEW!!! KC4-GORILLA KRE-ALK ALYN BUFFERED CREATINE Grape or Orange Flavor Creatine PHD program-why Kre-Alkalyn is the ONLY stable creatine. It is the only creatine in the world with a PH above 12 because its molecules are synthesized with "buffering" agents using a patented manufacturing process. As a result, it passes intact to the bloodstream and reaches the muscles at full strength. There is no loading phase with this creatine and it also does not hold water. **Serving Size: 20 grams. Servings per container: 65. \$46.95**

GFCV-(Vanilla)-GFCC(Chocolate)GFCs(Strawberry) - GORILLA ULTIMATE FAST CUT (Net WT 2LBS. (908 Grams)- Gorilla Ultimate Fast Cut is a revolutionary breakthrough which supplies the missing link for dieters - a great tasting, meal replacement formula with 25% more protein than other national brands. **More protein- to protect and improve lean muscle tone while losing those unwanted pounds! Remember- **The shape** will depend on the amount of muscle retained after the pounds are gone! If there is a loss of muscle due to **low amounts of protein** in the rush to lose weight, the body's metabolism actually slows down making the weight harder to keep off! Dieters may end up a smaller version of themselves - but still carrying excessive body fat **and actually looking flabbier due to lack of muscle!** **Nutritional Information:** Serving size 1 oz with low fat milk contains: Protein 17gr., Carbohydrates 27gr., Fiber (Oat Bran) 3gr., Fat 3 gr., Calories 198, plus all your Vitamins and Minerals. **\$26.98****

GPWS-(Vanilla)-GPWC-(Chocolate)-GPWS-(Strawberry)-WT

3LBS The New PRO'S NATURAL tm WHEY WITH ISOLATE 30 GRAMS PROTEIN Per Serving And Only 4 GRAMS CARBOHYDRATES –SCIENTIFICALLY ADVANCED, SUSTAINED RELEASE PROTEIN! WHAT IS THE PRO'S NATURAL WHEY™ ? PRO'S NATURAL WHEY™ is a specific blend of 4 high quality (high BV) natural proteins from Whey Isolate, Whey Concentrate, Potassium Caseinate, and Egg Albumin providing an "extended release" protein profile. The different absorption rates for the proteins allow for a more extended "feeding time" and a more complete amino acid pool for the working muscles. **** WHAT DOES THE PRO'S NATURAL WHEY™ CONTAIN? PRO'S NATURAL WHEY™** contains a full spectrum vitamin mineral blend to aid in muscle nourishment as well as a digestive enzyme complex to ensure maximum digestion and alleviate bloating, commonly associated with proteins. **PRO'S NATURAL WHEY™** is a high in branched chain amino acids and glutamine to increase recovery. **WHY IS CLA ADDED?** Conjugated Linoleic Acid (CLA) works to block certain enzymes that let fat cells swell. The process helps control our bodies weight. **SUGGESTED USE: **** Take 1-2 scoops daily with 6-8 ounces of cold water or your favorite beverage, For best results, take 1 scoop before and after workouts. For a delicious low-glycemic alternative, try blending 1 scoop of the Pro's Natural Whey tm and 6-8 oz., of none fat milk (adding 8 grams of whole milk proteins tom your daily diet) and 1/2 Cup of unsweetened cherries. It is important to drink an additional 12-20 oz., Of water within 1 hour after ingesting a protein drink to aid in digestion.

\$47.25
